

# Enterprise Full Touch Mobile Computer EF550

## The Ultimate Performance for Enterprise Mobility

Building on the success of Bluebird EF50x series, the all-new EF550 offers the larger display of 5.45" with enhanced innovative features and form factor that provide more huge value to enterprise productivity and user environment. The various features of the upgraded BOS™ solutions boost ease of use in device management as another level in order to maximize work efficiency.

Enjoy the EF550, a product of Bluebird's all cutting edge technology for the ultimate enterprise mobility performance.

### Key Features

#### **Ultimate Performance**

With adopting Qualcomm Snapdragon® , the best CPU for enterprise and Android 10; upgradeable to Android 14 EF550 makes workers do business faster

and more securely, enhancing work efficiency. Users can quickly switch application screens thanks to the new Universal Flash Storage (UFS).

#### Faster, Wider BUT Less Power

EF550 has 2x2 Multiple-User Multiple Input Multiple Output (MU-MIMO) technology that makes possible for multiple devices communicate with access points simultaneously through pinpoint beamforming, which leads to enhancement in Wi-Fi network speed, range, and capacity. And access point is the one who processes not the device, increasing device battery cycletime.

#### Ultimate Rugged & Durability

Through Bluebird TankSmith® technology, EF550 is designed for the enterprise with the highest-in-class drop spec of 5 ft. (1.5m) and sealing up to IP68 to provide the ultimate durability and usability allowing use in environments exposed to water, humidity, or dust.

#### The Largest Display

The largest-in-class 5.45-inch display provides more quality information to the device users and at the same time, it enhances working condition with the best-in-class outdoor readability for users to read the screen even in bright sunlight.

#### No worry, It's All-Day Battery

No need to worry about recharging while working! EF550 battery offers 14-hour power in serial use. Safe as it is a hard-pack and stable battery operation with support of BOS™ PowerManager. Hot Swap mode is available without running any application, ensuring task continuity without turning off the device or an application. You can minimize loss of data due to discharge.

#### **Business Optimized Solution**

Bluebird BOS<sup>™</sup> (Business Optimizing Soluti ons) provides various features optimized for use of enterprise device from app development, device deployment, to business performance management as an integrated solution system. WithBOS<sup>™</sup> you can implement integrated management for EF550 in an efficient way.

#### **Industry & Applications**

#### Retail - Store associates

- Price/Inventory checksInventory management
- BOPIS (Buy online, Pick up in store)
- Loyalty management
- Assisted selling
- Voice communication
- Electronic coupons
- Store transfers
- Gift registry lookup

#### Retail - Store managers

- Workforcemanagement
- Planogram management
- Promotion compliance
   Merchandising

#### Field Service Technicians

- Asset management
- Invoicina

#### T&L

- Proof of Delivery

#### Healthcare

- Patient management, Staff communication

- Hospitality
- Order taking
- Government/Public Safety
- ID validation/Ticketing

#### BOS<sup>™</sup> Solutions & Software

- BOS™ Provisioning; Staging; Kiosk; Virtual Key; Enterprise Keyboard
- BOS™ VolP
- BOS™ PTT, PTT Essential
- BOS™ Wi-Fine™ (WiFi analyze application)
- BOS™EMM
- BOS™OTA
- BOS™ OemConfig

#### 3'rd Party Solutions Integration

- EMM : Airwatch, MobileIron, Mobicontrol, IBM Mass360, XenMobile
- PTT : ESChat, Zello, IMPTT, EveryTalk, AirPTT
